

My Unusual Easter Holidays

April 2020

This Easter was very unusual. Our family usually goes to 🏰 at Easter but this year all the 🏰es were closed because of the coronavirus. We all felt 😞

Grandma helped make Easter Day fun and organised an Easter 🥚 hunt in the garden.

Every day we walk up and down the track. Sometimes I play Pokémon and try and find 🐉s and 🦊s. When I find one I get excited and always check its iv, cp and hp (iv means stats, cp means combat power and hp means health points). Sometimes I go on my 🚲 but it is very hard as I always fall off my 🚲. I sometimes do doughnuts on the grass next to our neighbour's house, this is fun. When we walk along the track, we hardly ever meet anybody and when we do we stay away from them.

If Mummy goes to the bakers or the 🧑🏻's then we go out in the car with her but we all have to stay in the car apart from Mummy.

The worst thing about the holiday was that we did not see the rest of the family. None of our friends or family came to see us 😞. We do keep in touch by skype and FaceTime. This makes me feel 😊.

I still practise my 🎷 and have played on Thursday nights in the garden with Mummy for the Clap for Carers 🌈.

Because of the coronavirus I feel very 😞 in case someone in my family will get it. I wish it was over and I was back at school.
